**EPILEPSY FLORIDA OFFICIALLY CHANGES ITS ORGANIZATIONAL NAME TO EPILEPSY ALLIANCE FLORIDA**

*Operating as Epilepsy Alliance Florida as of April, 2022*

**Miami, Fla., Wednesday, April 6, 2022** – During the Miami Walk the Talk for Epilepsy on Saturday April 2, 2022, Epilepsy Florida unveiled its organizational name change to **Epilepsy Alliance Florida** officially aligning itself with the national Epilepsy Alliance organization.

**Epilepsy Alliance Florida** will continue with its existing mission of providing resources for people with epilepsy, their families, their caregivers, and our community. The nonprofit organization serves over half a million individuals and families impacted by epilepsy and the spectrum of challenges created by seizures. EAF has dedicated teams in Miami-Dade, Broward, Palm Beach, Jacksonville, Gainesville, Pensacola, and Naples. The organization is here for those who depend on advocacy, resources, and services, regardless of whether they can afford it.

With the new name and through the power of local services, EAF will provide local care and support to the community. **Epilepsy Alliance Florida** wants to be the first call for the person newly diagnosed with epilepsy, for the parent of a child struggling with seizures, and for the caregiver of a loved one without work because of their condition.

Donors can feel good knowing every dollar they donate to us will stay right here in Florida providing hope for our neighbors with epilepsy. While we have a new name, **Epilepsy Alliance Florida** has the same mission, same help, same services.
